# Net2 Entry

A simple door entry system for  
your building

Smart audio/video door entry  
system in full colour

# Net2 Entry

Net2 Entry is a simple security solution that allows you to identify a visitor before they are granted entry to the main doors of your building. Once you have recognised the visitor via our smart audio and colour video monitor, you can grant or deny access as appropriate. You can unlock the external doors to your building by simply pressing a button on your touchscreen monitor.

## Convenient and Secure

- Grant visitor access at the touch of a button
- Unlock main doors from the comfort of your home or office
- See and hear who is outside before you open the door
- Use the video monitor to look and see who is visiting at any time
- Works with the UK's leading access control system for added security

Net2 Entry is easy to use and comes in a stylish, discreet design, offering a flexible and high security solution that suits a range of environments.
